

Jackson's Kennel Stud Contract

Jackson's Kennel offers stud service to approved bitches only. Accepted payment methods are cash, Zelle, and Venmo. The requirements are strict and nonnegotiable. Bitches must be:

- Minimum age 2 years old, maximum age 6 years old*
- Have full registration with the AKC or an AKC accepted kennel club
- Be Brucellosis negative and free of Canine Papilloma Virus symptoms
- Have a clear fecal for live-cover and side-by-side AI (if fecal was positive proof of treatment is required before breeding)
- Be current on vaccinations
- May carry only 1 gene of VWD and no more than 2 DCM genes total
- Be of breed standard height, color, disposition
- Be in good health and of a healthy weight
- Be of sound temperament and personality
- Display no signs of reactivity or aggression to people or animals
- Have proof of minimal health testing: holter or echocardiogram, VWD, DCM1, DCM2, DvDOB, OCA genetic testing, and OFA or PennHip hip certification

The bitch must be fit, healthy, breed standard temperament, and under control at all times. You will be provided a copy of the stud's pedigree, copy of the signed contract, links to the stud's health testing, and one profile picture and one stacked picture of the stud.

Stud service is available for live-cover (natural breeding) or AI (artificial insemination). Vials for AI are collected, prepped and shipped by Jackson's Kennel's breeder. Same day shipping is available until 10am Mon-Thursday. Next day shipping is only available when shipped out Mon-Thursday. Shipping requests after Fri cannot be guaranteed for next day arrival. All shipments are sent insulated and with ice packets estimated to last 48 hrs until completely thawed. The semen extender has an average viability lifespan of 7-10 days. For AI shipped semen the bitch owner will be provided with 2 vials of chilled semen with extender. Additional vials may be purchased for a \$50 fee per vial. Chilled semen is shipped ASAP one-day shipping Mon-Thurs. Next day may not be available for Fri-Mon. The bitch owner is responsible for shipping costs. Shipping is not included in the stud fee and varies based on location. Banked frozen semen can be arranged and shipped; all fees for the collection, banking and transport are billed to the bitch's owner prior to shipping. We do offer fresh side-by-side AI performed by the breeder at the breeder's/stud owner's home.

Bitch housing: Bitches may be brought or transported to Jackson's Kennel at the bitch's owner's expense. Jackson's Kennel is not responsible for transportation scheduling nor transportation costs. She will need to have enough kibble to last her stay, a proper fitting collar, and a leash. If she arrives without food, a collar, and/or a leash there will be a charge for those missing items. Purchased items will be sent home with her. Raw, refrigerated, and frozen foods are not permitted. She must be current on rabies, Lepto, Parvo/Distemper, and Kennel Cough/Bordetella vaccines and microchipped. She must have started her heat prior to her stay. She must be able to be walked on a leash and collar. Housed bitches will be kenneled on site and kept isolated from all other dogs except supervised time with the stud. The maximum stay allowed is 2 weeks. After two weeks she must be returned to her owner. This is a courtesy offer; Jackson's Kennel is not a boarding facility. Should

the bitch reject the stud the breeder will call and discuss side-by-side AI. If the bitch shows aggression towards the stud or the breeder/stud owner she will not be permitted to breed with him and will need to go back to her home immediately.

Conditional Terms: Please be aware pregnancy is not guaranteed. Pregnancy is a complicated process and anything can happen to compromise a pregnancy (from injury, to insufficient nutrition, to environmental stress, to toxin exposure, ect). Pregnancy is to be confirmed by a veterinarian before whelping via blood relaxin test or ultrasound between day 30-35 gestation. A miscarriage is subject to rebreeding at Jackson's Kennel's discretion. A litter is considered one live puppy at birth. A live puppy is defined as a puppy able to breath on its own after birth. Puppies that are stillborn are not counted towards a litter. Fading puppies do not count as stillborn or miscarriage, and still count towards the at birth litter size.

We do offer a conditional next heat stud service re-session if *all* the following are met (as appropriate per breed);

- Pregnancy was confirmed by a veterinarian to have not taken via a blood relaxin test or ultrasound between 30-35 days from first tie, or if litter was reabsorbed (contingent on reason for reabsorption)
- Bitch was fed a balanced pregnancy, puppy or all-life stages food not raw
- Bitch is between 2-6 years old - *Bitches over 6 years and 364 days old may be bred conditionally, provided proof a reproductive veterinarian has evaluated the dog and determined she is fit for breeding. Provided she is cleared by a vet for breeding, she is entitled to a one-time breeding, we will not provide a second re-session if pregnancy doesn't take
- Bitch is on pregnancy safe medications (vitamins, supplements, flea medication, heartworm medication, dewormer, etc)

Should the bitch fail to meet all the requirements for stud service re-session will be denied. Bitches with minimal health testing will not be offered a rebreeding. No exceptions. We may request your vet provide a letter stating the bitch is healthy, fit for breeding and the pregnancy not taking was not related to inadequate health, previous history of infertility or illness, etc. Progesterone and LH surge testing are highly encouraged to optimize ovulation timing. If the next heat mating fails to take as well we will offer one of the following; either ONE more re-session, an AI session, or one time breeding to a different female who meets our requirements with a statement of infertility by your established vet. Rebreed for miscarriages and reabsorbed litters is at Jackson's Kennel's discretion. A missed breeding is subject to rebreeding at the stud owner's discretion. A litter is considered one live puppy at birth. There are no refunds on stud services and costs, including but not limited to shipping semen storage, vet appointments, travel, lodging, health testing, pregnancy confirmations, shipping, etc.

¹ Fraud Clause: Jackson's Kennel believes in honesty and openness but we do not tolerate theft or impersonation of us or our dogs. If we find out a litter has been registered without our prior approval we will immediately file a case with the AKC, have the litter registrations revoked, and pursue legal action for theft, defaming, personal identity fraud, and whatever else our lawyer sees fit. We will file a police report and push for charges to be filed. Do not use our registrations, certificates, pictures, kennel name, dog names, or pedigrees as your own. We will not hesitate to act immediately nor will we warn you. Regarding misrepresentation of testing, your dog, yourself, and any information provided: We do not tolerate being misled. If any information was purposely misrepresented or falsified it will result in immediate termination of this contract and forfeiting of this agreement and stud service.
