Why do we ask for all this? - We ask for a current address to both mail out the puppy packet and to ensure our puppy is going to a real, legitimate home. We do not accept business addresses, P.O. boxes nor store addresses. If you would like the packet mailed to a P.O. box please let us know, but we will still require the physical address of where the puppy will be housed. *Keep in mind we do check to ensure the address is a real, occupied residence prior to transporting the puppy.* We ask for a secondary contact in the event you yourself cannot be present to pick up the puppy or if the transport service can't get ahold of you directly. The provided information will be used to schedule transport. Without proper information the puppy can not be picked up; it is imperative the information provided is accurate and true. All transport services will require a valid ID to pick up the puppy. The copy of the ID you provide us with will also be given to the ground transport service so only the approved person can pick up the puppy. This information also helps us avoid scams, protect our dogs and to comply with our service providers.

Note: We do not provide any guarantee while the puppy is in transport. The buyer assumes all risks when transporting a dog. We ensure the puppy leaves our care in optimal health as certified by a veterinarian.

By signing below you acknowledge you understand there are risks associated with transporting and you agree to accept those risks. You also affirm the information is true and accurate. You also acknowledge you have agree to all our purchase and contract terms and conditions. Thank you for considering Jackson's Kennel for you future dog!
